Profile

As a highly motivated and detail-oriented recent graduate with a strong foundation in database design, development, and management, I am eager to contribute my skills and knowledge to a dynamic organization. Proficient in SQL, data modeling, and database management systems (DBMS) such as MySQL, PostgreSQL, and Oracle, I am adept at designing efficient and scalable database structures. With a passion for problem-solving, data integrity, and optimizing database performance, I am committed to learning and growing in the field of database architecture. Looking for an opportunity to apply my academic background and technical skills to real-world projects and collaborate with experienced professionals in the industry.
